

School of Nursing STRATEGIC PLAN 2006–2010

OUR VISION

To advance the health and well-being of the community through nursing education and research.

OUR MISSION

To advance the discipline of nursing through the delivery of high-quality education, industry partnerships, research and professional leadership; and to provide a creative and collaborative environment for students, colleagues and staff.

OUR VALUES

- A learning community that fosters critical reflection, intellectual rigour, creativity and flexibility
- Collaborative, cooperative and collegial activities with health and industry partners
- Consultation and decision-making processes based on integrity and respect in working relationships
- Being responsive and proactive to emerging issues
- A safe, supportive and socially just environment in which there is a sense of belonging and opportunities for professional and personal development
- Quality outcomes and the recognition of achievement.

LEARNING AND TEACHING GOAL

To provide high-quality courses which prepare nurses to contribute to improved health outcomes

Objectives

- Develop quality courses which reflect the health needs of the community
- Undertake continuous course improvement activities to ensure the highest standard of learning and teaching
- Facilitate student-centred learning through improved access to flexible educational opportunities and technology
- Utilise a range of evidence-based teaching strategies to optimise student learning
- Undertake research which promotes excellence in learning and teaching
- Collaborate with key stakeholders in the design, delivery and evaluation of courses

RESEARCH GOAL

To advance the knowledge and practice of nursing and health care through excellence and innovation in research

Objectives

- Develop collaborative research opportunities with industry, government and multi-disciplinary groups
- Collaborate with local, national and international research groups
- Foster an environment that facilitates high-quality research
- Undertake high-quality research which contributes to health and well-being of society

SERVICE GOAL

To develop and lead nursing – locally, nationally and internationally

Objectives

- Develop mutually beneficial partnerships with key stakeholders, locally, nationally and internationally
- Provide consulting and research activities
- Contribute to, and lead relevant nursing and community organisations, locally, nationally and internationally
- Advocate for nursing's contribution to health care by participating in policy making relevant to nursing and nursing education

ORGANISATIONAL CULTURE GOAL

To provide a supportive and stimulating environment which advances the goals of the school

Objectives

- Provide professional development and leadership opportunities for staff
- Attract, retain, and develop high-quality staff
- Provide opportunities to recognise the unique and diverse contributions of all staff
- Provide accountable and sustainable resource allocation procedures
- Support effective and efficient school management systems and processes which are client focussed
